

The Miracle of Turning Water into Wine

On the third day there was a wedding in Cana of Galilee, and the mother of Jesus was there. Jesus and his disciples had also been invited to the wedding. When the wine gave out, the mother of Jesus said to him, "They have no wine." And Jesus said to her, "Woman, what concern is that to you and to me? My hour has not yet come." His mother said to the servants, "Do whatever he tells you." Now standing there were six stone water jars for the Jewish rites of purification, each holding twenty or thirty gallons. Jesus said to them, "Fill the jars with water." And they filled them up to the brim. He said to them, "Now draw some out, and take it to the chief steward." So they took it. When the steward tasted the water that had become wine, and did not know where it came from (though the servants who had drawn the water knew), the steward called the bridegroom and said to him, "Everyone serves the good wine first, and then the inferior wine after the guests have become drunk. But you have kept the good wine until now."

— John 2:1-10

While we don't have the Master's touch to convert water into what was probably the finest wine ever produced, we do have the next best thing.

Description

The PursaLite is a stirrer that will enhance and enrich all your favorite beverages. It is made of high quality, food-grade stainless steel and our proprietary natural, organic, mineral ceramic ores. The PursaLite comes with a small, portable case so you can activate and energize your beverages on-the-go.

Details

Liquid Conversion Technology

With a simple stir (5-10 seconds) of the PursaLite, say goodbye to bitter tastes and hello to an incredibly smooth and vitally improved beverage.

How does it work?

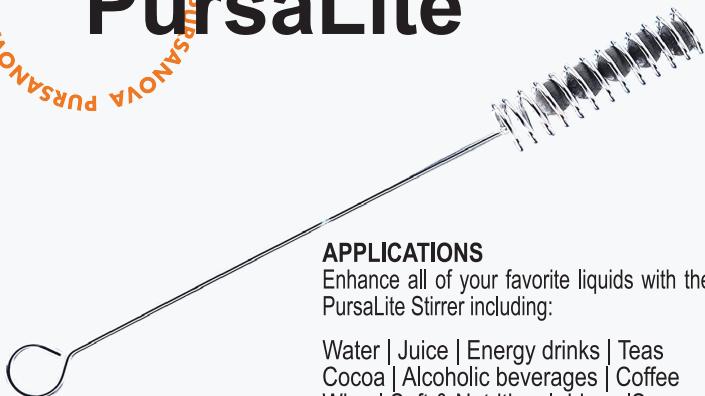

The resonance energy transfer caused by the ceramic ores helps reduce acids and the formation of free radicals. This characteristic allows beverages to be free of contaminants that can affect its taste, improving flavor without use of additives. The PursaLite is a healthy choice that is both affordable and convenient.

Directions

- Wash the PursaLite Stirrer thoroughly with a mild detergent and soft brush
- Rinse prior to its first use, and periodically as well
- Rinse with water after each use to keep the stainless steel coil and ores clean and sanitary

PursaLite

APPLICATIONS

Enhance all of your favorite liquids with the PursaLite Stirrer including:

Water | Juice | Energy drinks | Teas
Cocoa | Alcoholic beverages | Coffee
Wine | Soft & Nutritional drinks | Soups
